

**REMARKS**

It is believed that these amended claims will restrict the claims to a single invention, i.e. the grain moisture meter of Claim 1. Claim 8 relates now to a method of determining density and moisture content of grains using a test cell which measures the dielectric constant as specified in the apparatus of Claim 1. and the subject matter of Claims 4-7 are is now completely subordinated to the grain moisture meter of Claim 1.

In the event there are any questions concerning this Amendment, or the application in general, the Examiner is respectfully urged to telephone the undersigned so that prosecution of the application may be expedited.

No additional fees are believed to be due at this time however if necessary to effect a timely response the Commissioner is authorised to deduct the necessary fees from Deposit account No. 501249.
